## Introduction

The Research Management System (RMS) is a web-based application developed by the Australian Research Council (ARC) and now used by multiple agencies to manage their Grant Programs. Each agency can utilise functions such as: submissions, request not to assess, assignment and assessment, rejoinders, announcement, grant offers/acceptance, and post-award activities such as grant variations and project reporting.

More detailed information on the agencies utilising RMS is available on the [Research Grant Services](#) page of the ARC Website.

### RMS Access

The web address to access RMS is dependent on the agency or program that you are needing to interact with.

- ARC (NCGP) RMS instance - <https://rms.arc.gov.au>
- DESE (NCRIS) RMS instance - <https://dese.researchgrants.gov.au>
- ONI (NISDRG) RMS instance - <https://rmsoni.researchgrants.gov.au>
- Defence (NISDRG) RMS Instance - <https://defence.researchgrants.gov.au>

**Note** - You only need one account to access RMS, regardless of agency or program you are accessing, however you will require specific roles for each version/instance of RMS.

All screenshots provided within this document have been sourced from the NCGP instance of RMS and images may differ slightly dependent on the instance you are using.

## Key Points

- The target audience for this user guide is scheme round participants and Research Office staff who will be submitting a Request Not to Assess (RNTA) within RMS.
- RMS is compatible with the latest versions of Google Chrome and Microsoft Edge. The ARC cannot guarantee compatibility with other browsers or older versions of Google Chrome or Microsoft Edge.
- RNTAs can only be created or edited by individuals who have full edit access to the corresponding scheme round application within RMS. For additional details on granting full access to individuals please see the 'Submitting an Application' user guide available on the [ARC website](#).
- An RNTA will only become available once the scheme round application has information contained in the Application Title, Application Summary, Administering Organisation detail and at least 1 Chief Investigator listed. For further information on how to complete these details please refer to the scheme specific Instructions to Applicants available on the Grant Opportunity located on [GrantConnect](#).
- A total of three individuals can be added to an RNTA. This limit is enforced at the application level and does not increase based on the number of listed participants. Additional justification will be required for requests for College of Experts.

## PART 1 – Creation and Deletion of a Request Not to Assess

Requests Not to Assess (RNTA) are associated by application ID. To create the RNTA, ensure that the application form has been created and the below details have been completed within the application form.

**Note** – Only individuals with full edit access to the application form will be able to create or edit the RNTA. For further information on granting full access to individuals please see the 'Submitting an Application' user guide available on the [ARC website](#).
